

# Product Information Sheet

COMMISSION DELEGATED REGULATION (EU) 2019/2015 with regard to energy labelling of light sources

**Supplier's name or trade mark:** LED-Studien

**Supplier's address:** Technische Abteilung, Mühlenweg 15, 04451 Borsdorf, DE

**Model identifier:** LB3N30-40

## Type of light source:

|                                                     |                 |                                 |                            |
|-----------------------------------------------------|-----------------|---------------------------------|----------------------------|
| Lighting technology used:                           | LED             | Non-directional or directional: | NDLS                       |
| Light source cap-type (or other electric interface) | 3-pin connector |                                 |                            |
| Mains or non-mains:                                 | NMLS            | Connected light source (CLS):   | No                         |
| Colour-tuneable light source:                       | No              | Envelope:                       | -                          |
| High luminance light source:                        | No              |                                 |                            |
| Anti-glare shield:                                  | No              | Dimmable:                       | Only with specific dimmers |

## Product parameters

| Parameter | Value | Parameter | Value |
|-----------|-------|-----------|-------|
|-----------|-------|-----------|-------|

### General product parameters:

|                                                                                                                                                       |        |                         |                                                                                                                                                            |                        |
|-------------------------------------------------------------------------------------------------------------------------------------------------------|--------|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|
| Energy consumption in on-mode (kWh/1000 h), rounded up to the nearest integer                                                                         |        | 6                       | Energy efficiency class                                                                                                                                    | F                      |
| Useful luminous flux ( $\phi_{\text{use}}$ ), indicating if it refers to the flux in a sphere (360°), in a wide cone (120°) or in a narrow cone (90°) |        | 628 in Wide cone (120°) | Correlated colour temperature, rounded to the nearest 100 K, or the range of correlated colour temperatures, rounded to the nearest 100 K, that can be set | 3 900                  |
| On-mode power ( $P_{\text{on}}$ ), expressed in W                                                                                                     |        | 6,3                     | Standby power ( $P_{\text{sb}}$ ), expressed in W and rounded to the second decimal                                                                        | 0,00                   |
| Networked standby power ( $P_{\text{net}}$ ) for CLS, expressed in W and rounded to the second decimal                                                |        | -                       | Colour rendering index, rounded to the nearest integer, or the range of CRI-values that can be set                                                         | 95                     |
| Outer dimensions without separate control gear, light-                                                                                                | Height | 13                      | Spectral power distribution in the range 250 nm to 800 nm, at full-load                                                                                    | See image in last page |
|                                                                                                                                                       | Width  | 20                      |                                                                                                                                                            |                        |
|                                                                                                                                                       | Depth  | 300                     |                                                                                                                                                            |                        |

|                                                                       |      |                                    |                |  |
|-----------------------------------------------------------------------|------|------------------------------------|----------------|--|
| ing control parts and non-lighting control parts, if any (millimetre) |      |                                    |                |  |
| Claim of equivalent power <sup>(a)</sup>                              | -    | If yes, equivalent power (W)       | -              |  |
|                                                                       |      | Chromaticity coordinates (x and y) | 0,382<br>0,372 |  |
| <b>Parameters for LED and OLED light sources:</b>                     |      |                                    |                |  |
| R9 colour rendering index value                                       | 82   | Survival factor                    | 1,00           |  |
| the lumen maintenance factor                                          | 0,96 |                                    |                |  |

(a) '-': not applicable;

(b) '-': not applicable;
